## Route Change #5 Trail 3

The purpose of this change is to direct hikers along Miles Ct, which has less traffic than Canby St. Furthermore, the proposed change follows an established pathway in Hideaway Park (maintained by THPRD). Hideaway park is scenic, void of traffic, and a good representation of urban trails in the area. Trail 3 ultimately ends at the Garden Home Commercial district with a connection to the Fanno Creek regional Trail. SWT recommends the highlighted route shown in this exhibit. SWTrails will work with Washington County and THPRD to obtain agreement to the route and secure signage in the area of their jurisdiction.
